Professional Summary:

I'm a recent graduate from Victoria University. I am a **Front-end Developer** with some experience as a **Back-end Developer**. I enjoy Front-end Development because I enjoy creating beautiful websites that will help companies and their clients. Being a developer also involves working together with a team, I really enjoy working with a team because I learn and improve faster in multiple ways such as reflecting on criticisms. Currently, I'm looking forward to improving my knowledge as a **Developer** which is why I'm looking to gain more experience by working in the industry.

Skills Summary

Programming Languages:
- C#, Java, Javascript, Ruby, CSS, Html, Visual Basic, Python, JQuery / AJAX, SQL (Postgres), Jade, JustInMind Prototyper

Framework:
- NodeJS, Bootstrap, Rails

Software:
- pgAdmin, Putty, Eclipse, Visual Studio, Virtual Box, Sublime Text, Microsoft Office

Tools:
- Git (https://github.com/Josh1994), Heroku, Slack, Trello

Operating System:
- Ubuntu, Windows

Communication:
- **Open-minded** and **receptive to criticism**.
- **Friendly** and I can convey my ideas with ease.
- Willing to ask for help when needed. And willing to help as well.
- I have experience as both a **follower** and a **leader**. I have been part of multiple group projects such as Agile Development webpage project, Smart App and Trade-You website.
- I plan to **attend upcoming Hack Fests** to further improve my communication and team building skills.
- I have experience in working in an **Agile** environment together with a team of 5 people in developing a website specified by a client.

Leadership:
- Led several group projects(websites, applications) during my stay at Victoria. Adopting agile methodologies, mainly scrum and using new technologies including Bootstrap, AJAX and embedded javascript.

Adaptive:
- I can adopt to a new environment quickly due to being involved with different set of people on university projects and on Hackfest events in the past.
- I believe that I am a passionate learner, someone that spends my own time to understand new concepts introduced which contributes a lot in adapting to a new environment.

Activities:
- Actively **participating in Summer of Tech boot camps**, a student internship program that helps bridge the gap between students and NZ tech employers.
- **Attending Tech Talks** such as Mobile Refresh and Tech Week events. To learn new skills, meet new people and update myself on upcoming / new technologies.
- Attended **WLG Web Hackfest** sponsored by Powershop and we won **3rd place**.We made a web app called Wahi Mahi that aggregates data to display the best place for someone overseas to live in.
- Part of **Assurity's Crowd Testing group**.
- Earned a **full driver's license**.
- Part of the **volunteers** for Wellington's Special Olympics National Summer Games 2017.

Experience:
- **Student Tutor in SWEN222 Software Design**   August 2016 - October 2016
  at Victoria University of Wellington
- **Crowd Tester**   August 2016 - Present
- **Consumer Confidence Survey Interviewer(Seasonal)**   March 1 2018 - Present
